FOR LEASE

24' HEIGHT STAGE + PRODUCTION COMPOUND PLAN

6151-6159 SANTA MONICA BLVD.

18,000 SF TO 15,500 PRODUCTION FACILITY

- Removing second floor area will create an approximately 2,500-3,000 SF stage with 24' clear height adjacent to the ground floor area which houses the mill and wardrobe areas.
- The second floor space removed is the least improved and would not impact the kitchen, offices, podcast areas and is clear of both stairways up and down the front and rear entrances.
- The ground floor rollup door and freight elevator are ideally positioned on the easterly side of the building to support the stage area.
- The second floor landing off the freight elevator (north end) would remain to support moving equipment up and down and a catwalk would remain around the stage area.
- By removing the floor area and configuring for a stage, this would be low cost, high impact alteration and would be arguably value accretive given the number of stage users that need a fully programmed location for shooting commercials, videos along with support areas.
- GROUND FLOOR = Stage, Mill, Wardrobe, Storage
- SECOND FLOOR = Production Offices, Podcast, Kitchen

FIRST FLOOR PLAN

6151-6159 SANTA MONICA BLVD.

18,000 SF TO 15,500 PRODUCTION FACILITY

- Removing second floor area will create an approximately 2,500-3,000 SF stage with 24' clear height adjacent to the ground floor area which houses the mill and wardrobe areas.
- The remaining ground floor area will continue to complement and support the stage / shooting area.
- The second floor access points, both front and rear will continue to be utilized and are ideally situated to not disturb the shooting and production area.

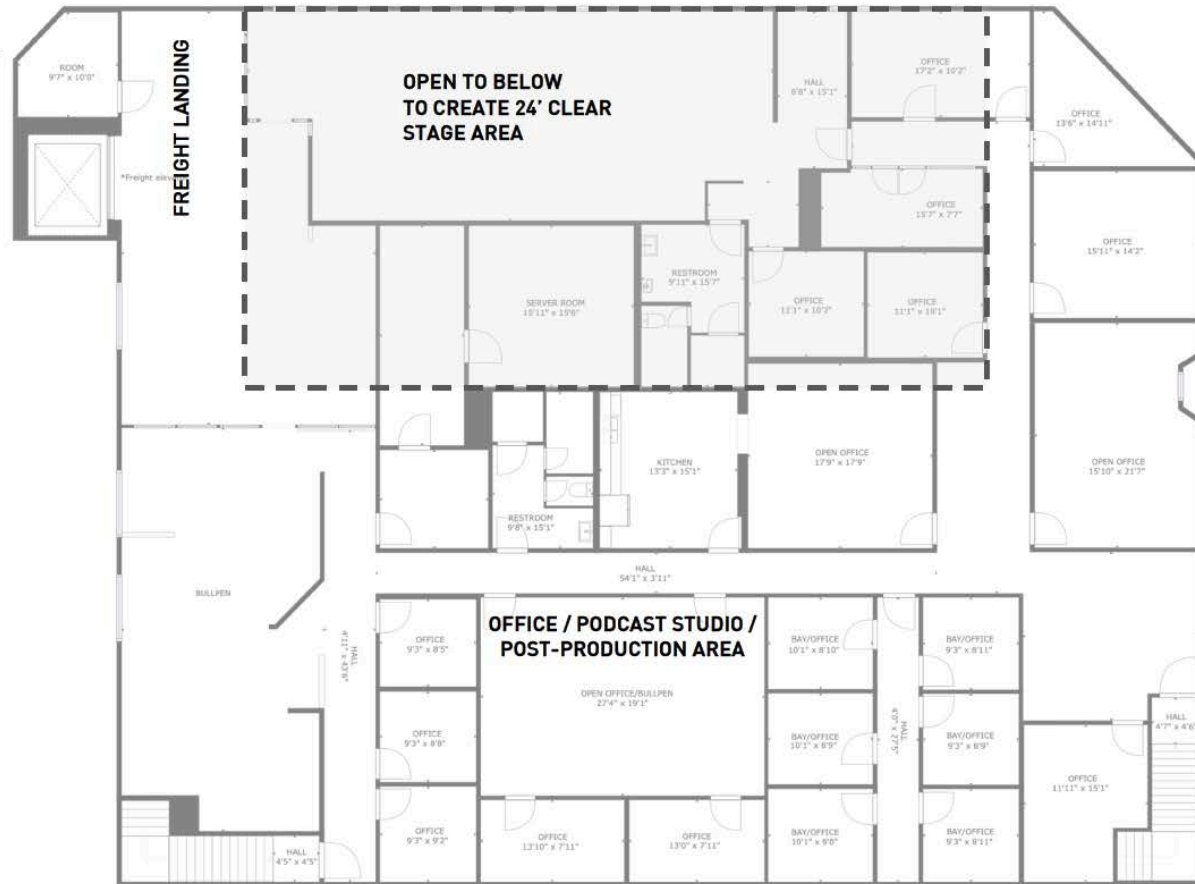

SECOND FLOOR PLAN

6151-6159 SANTA MONICA BLVD.

18,000 SF TO 15,500 PRODUCTION FACILITY

- Removing second floor area will create an approximately 2,500-3,000 SF stage with 24' clear height adjacent to the ground floor area which houses the mill and wardrobe areas.
- The remaining ground floor area will continue to complement and support the stage / shooting area.
- The second floor access points, both front and rear will continue to be utilized and are ideally situated to not disturb the shooting and production area.
